

I plead with the FCC to reject the NAB petition to ban some of xm's programming. My wife and I do extensive traveling by car, and one of the reasons I subscribe to xm radio is the have traffic and weather conditions available to me at all times. I am paying for this service, and NAB has no business or legal standing to deprive me of this priviledge, which again to repeat myself, I am paying for. I think we're dealing here with 1st Ammendment Rights, MINE!!!!!!Tom Mclean
